## MRI INFORMATION

A magnetic resonance imaging (MRI) scan is a painless procedure that lasts 20 to 60 minutes, depending on the area being scanned and the number of images being taken.

MRI uses a powerful magnetic field, radio frequency pulses and a computer to create clear pictures of organs, soft tissues, bone and virtually all other internal body structures. MRI does not use ionizing radiation (x-rays).

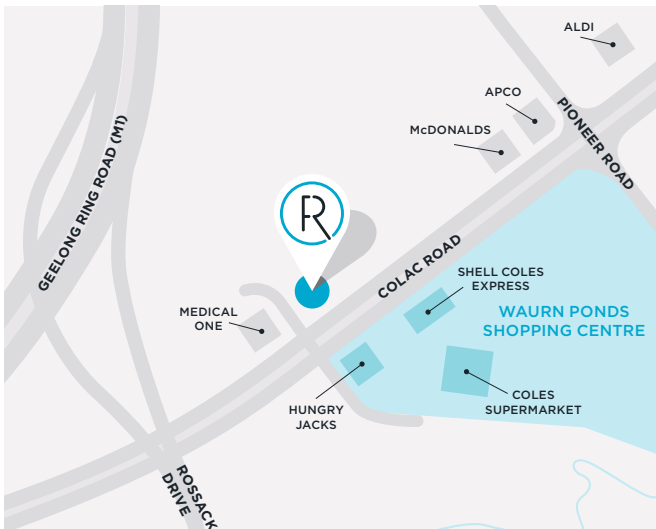

The images are then examined on a computer, transmitted electronically, and a copy is given to all patients on CD.

## APPOINTMENT PREPARATION

Please arrive 15 minutes prior to your appointment to complete the pre-scan preparation.

## IMAGING PROVIDER

Your doctor has recommended that you use Radius Imaging, you may choose another provider but please discuss this with your doctor first.

## RADIUS IMAGING

158 Colac Road  
Wauran Ponds Victoria 3216

T 03 5224 3000

F 03 5224 3088
