MRI Information

A magnetic resonance imaging (MRI) scan does not use ionizing radiation (x-rays).

MRI uses a powerful magnetic field, radio frequency pulses and a computer to create clear picture of organs and structures.

An MRI scan is a painless procedure that lasts between 20-60 minutes depending on the area being scanned and the number of images required.

Appointment Preparation

Please arrive 15 minutes prior to your appointment to complete the pre-scan procedure.

Imaging Provider

Your doctor has recommended that you use RADIUS Imaging. You may choose another provider but please discuss this with your doctor first.

Waurn Ponds

158 Colac Road
Waurn Ponds VIC 3216
Monday - Friday
8.30am - 5.30pm

Services Offered

- MRI
- CT Scan
- Ultrasound
- Digital X-Ray
- Dental Imaging
